A letter from Christkindl in 2021

Christkindl Market is a staple of the Christmas season.

As someone who started volunteering at the Market a decade ago and is now enjoying her sixth year of being a part of it, I can attest to how much of an impact Christkindl Market has on individuals and the community. I started off as an angel that accompanied Christkindl and distributed candy to children throughout the Market. I loved every bit of the experience, from greeting friends and family to smelling the food being prepared. Now, I am one of the Christkindls, and the experience is still just like it was for me as a child. I love seeing the smiles on people's faces when they stop to take a picture, and I enjoy seeing all the vendors return year after year.

Part of why this role is so special to me is that I watch other people make joyful memories at the Market while I make my own happy memories there too.

I am proud to be a part of this tradition that means so much to me, just like it does to the rest of the community that has found a place to bond and celebrate at Christkindl Market over a tradition with such a rich history. Each year, I am amazed by the vendors, the music, the food, and the cheerful environment that makes me so nostalgic of Christkindl Markets past, and also fills me with excitement for more to come in the future!

Wir haben so viel Spass daran!“
