

Festivals and Events Ontario Concludes Virtual Summit and Announces 2021 Award Winners.

In December 2020, the Board of Directors of Festivals and Events Ontario (FEO) made the decision to Adapt, Pivot and Evolve from the scheduled in-person annual FEO Conference on February 22-24, 2021 in the beautiful city of Niagara Falls, to a Virtual on-line Summit. There were obvious concerns that we would not be able to accurately present the typical FEO Conference experience in an on-line environment, the reality was, there was nothing typical about COVID-19 and the way it had decimated the festival and event industry in Ontario. The Board and Staff of FEO felt it was incredibly important to present something to our membership base that would lift their spirits, help them connect and network with their peers, and provide education and information about what the new normal for our industry will be as we recover from the pandemic.

We proclaimed February as FEO Month and every Tuesday, Wednesday and Thursday we presented a fun and educational virtual experience for our members featuring live entertainment, mental health sessions and round table discussions covering a plethora of topics ranging from Government Grants to Risk Management, Emergency Preparedness to Insurance Post Pandemic and everything in between. To see a complete schedule of events for the FEO 2021 Virtual Summit visit www.feosummit.com. FEO is a not-for-profit organization and charged a nominal fee to attend the Summit in an attempt to recoup a portion of the money lost from not hosting an in-person conference.

FEO also made changes to its annual awards program as it was impossible to conduct one in a status quo manner. We were aware that many FEO Members still managed to get the creative juices flowing and held a virtual experience this year to keep their audience entertained and engaged and to keep their festival or event top of mind. In addition, many of our supplier members showed great ingenuity and courage by pivoting away from their usual line of business to embrace the need for PPE, hand sanitation, fencing, barriers and more to assist municipalities and private sector with COVID-19 protocols. Individuals and organizations

needed to be recognized and congratulated for bravely jumping into the unknown, learning the ropes and successfully keeping their business or event alive during these troubling times.

We were pleased to unveil the FEO Achievement Program specifically for our FEO Members in 2019 and 2020 that were able to Adapt - Pivot - Evolve. These aren't just buzz words; they are strong pillars for our industry as it navigates its way through an unprecedented global pandemic.

Festivals and Events Ontario would like to congratulate the following festival and event 2021 Award recipients.
